

IC SPICY

IC SPICY Retail Buyer Sell Sheet

The one-page grocery buyer pitch.

For specialty grocers, regional grocery buyers, co-ops, and gourmet shops.

Farm-grown heat. Chef-built flavor. Blockchain-backed provenance.

Prepared May 2026 - Draft marketing material; legal review required before public token claims.

Brand Snapshot

IC SPICY is a premium Florida rare-pepper brand delivering chef-built heat from Zone 10a Southwest Florida. The line is designed for shoppers who want bold flavor, origin, and a story stronger than another generic spice jar.

Why It Belongs On Shelf

Premium heat is culturally hot, global flavor is growing, shoppers want better pantry upgrades, and IC SPICY gives the category a founder-led farm origin with modern QR storytelling.

Launch Assortment

Recommended first four SKUs: Zone 10a Fire Salt, Reaper Reserve, Smoked Datil Citrus, and Chef's Charred Garlic Pepper. This creates an everyday SKU, an extreme SKU, a Florida signature SKU, and a grill-friendly mass appeal SKU.

Retail Support

Founder-led demos, social content, recipe cards, QR provenance story, limited drops, local press, seasonal pepper tie-ins, and buyer-specific launch promotions.

Buyer Promise

Start tight, support the shelf, measure velocity, earn reorders, and scale only the SKUs that prove themselves.
