

IC SPICY

IC SPICY Retail Launch Calendar

A practical 90-day retail support plan.

For specialty retail launches and small regional account pilots.

Farm-grown heat. Chef-built flavor. Blockchain-backed provenance.

Prepared May 2026 - Draft marketing material; legal review required before public token claims.

Days 1-15

Deliver product, verify shelf placement, provide sell sheet and recipe cards, announce account on social, and schedule first demo.

Days 16-30

Run first demo, capture customer reactions, post store-specific content, check shelf condition, and record early sell-through.

Days 31-60

Run second demo, test a small promo, send buyer progress update, gather staff feedback, and identify best-performing SKU.

Days 61-90

Request reorder, refine assortment, propose secondary placement if velocity supports it, and package results for the next retail pitch.

Metrics

Units sold, units per store per week, demo conversion, reorder timing, customer comments, social engagement, and SKU ranking.
