

IC SPICY

IC SPICY SKU Concept Sheets

Concepts for the first four seasoning products.

For product development, label planning, tastings, and buyer previews.

Farm-grown heat. Chef-built flavor. Blockchain-backed provenance.

Prepared May 2026 - Draft marketing material; legal review required before public token claims.

Zone 10a Fire Salt

Everyday finishing salt with citrus, smoke, mineral crunch, and controlled chili warmth. Best on eggs, grilled vegetables, chicken, fries, avocado, and seafood.

Reaper Reserve

A luxury superhot blend designed for tiny-dose use. The goal is precision heat with depth, not a prank product. Best for chili, wings, sauces, marinades, and brave pepper heads.

Smoked Datil Citrus

Florida signature profile with bright citrus, smoked pepper, subtle sweetness, and coastal energy. Best on shrimp, fish, chicken, rice bowls, and roasted corn.

Chef's Charred Garlic Pepper

Broadest mass-market contender: roasted garlic, char, pepper, salt, chili warmth, and savory finish. Best on steak, burgers, potatoes, mushrooms, and grilled vegetables.

Future Limited Drops

Aji Amarillo Mango Smoke, Scotch Bonnet Lime Salt, Charapita Gold Dust, and Death Spiral Black Garlic should be seasonal or collector releases after the core line proves demand.
