

IC SPICY

IC SPICY Packaging Copy Guide

Words for labels, backs, QR callouts, and claim discipline.

For designers, label review, and packaging production.

Farm-grown heat. Chef-built flavor. Blockchain-backed provenance.

Prepared May 2026 - Draft marketing material; legal review required before public token claims.

Front Label Formula

Brand name, SKU name, short flavor promise, heat level, net weight, and one concise origin phrase such as Zone 10a Florida Pepper Blend.

Back Label Formula

One founder-origin paragraph, tasting notes, use cases, ingredient list, QR callout, batch number, website, and required regulatory information.

QR Callout

Scan for the IC SPICY story, batch notes, pepper origin, recipes, and membership updates. Avoid promising investment, token upside, medical effects, or unverifiable claims.

Claims To Avoid

Do not claim organic, pesticide-free, health benefits, disease treatment, guaranteed provenance certification, or token economics unless legally reviewed and factually supported.

Tone

Premium but not stiff. Confident but not hype-drunk. Culinary, farm-rooted, and specific.
