

IC SPICY

IC SPICY X Thread Bank

Prewritten thread ideas for the next 30 posts.

For founder-led X growth and ICP community education.

Farm-grown heat. Chef-built flavor. Blockchain-backed provenance.

Prepared May 2026 - Draft marketing material; legal review required before public token claims.

Thread 1 - Why Seasoning Needs Origin

Hook: Most spice jars tell you a flavor. They do not tell you a story. IC SPICY is changing that.

Thread 2 - McCormick, Kinder's, and the Opening

Hook: McCormick owns legacy. Kinder's owns modern grill energy. The next lane is farm-origin luxury heat.

Thread 3 - What RWA Means Here

Hook: RWA does not have to mean real estate or treasuries. Sometimes it means a living pepper plant with a history.

Thread 4 - Zone 10a Advantage

Hook: Southwest Florida is not just a location. For peppers, climate is character.

Thread 5 - Heat Is Easy

Hook: Anyone can make something hot. The hard part is making heat taste expensive.

More Thread Hooks

From tray to token; Why I am building on ICP; What PepperHeads are; Why QR labels matter; How to beat commodity spices; Why retail velocity matters; What a chef-built pepper blend needs; Why solo-founder brands can move fast.
