

IC SPICY

IC SPICY Community Moderation Guide

Rules and tone for a healthy community.

For X, Discord/OpenChat, Telegram, comments, and future community channels.

Farm-grown heat. Chef-built flavor. Blockchain-backed provenance.

Prepared May 2026 - Draft marketing material; legal review required before public token claims.

Principles

Food first, respect always, no scams, no price manipulation, no harassment, no medical claims, and no pretending speculation is utility.

Allowed

Grow tips, recipes, product feedback, pepper photos, ICP questions, NFT utility discussion, retail ideas, and constructive criticism.

Not Allowed

Token price pumping, guaranteed profit claims, hate speech, doxxing, spam, fake giveaways, impersonation, unsafe food advice, and harassment.

Escalation

Warn, mute, remove, ban, and document depending on severity. Security issues should go to a dedicated disclosure path once available.

Tone

Casual, direct, helpful, spicy but not toxic. The brand can have heat without becoming hostile.
